Having thus answered our contemporaries' interrogatory and give him the benefit of such *good sense* as we have, he will not deem it discourteous in us to propound one in return. If the editor of the *Yeoman* was a candidate for office, would he invite to his table or to a place in his parlor a man whom he would reject from either place if he were not a candidate? Would he, while a candidate, in order to get a vote or to secure an influential supporter, invite a man to his table whom he would not so invite after his election by

office in the Church for forty-three years, his character deserves to be held in the highest esteem, and his memory to be perpetuated in the history of the Church. We devoutly thank God for such a man, and for the gifts and grace which rendered his eventful life so useful, his declining years and closing day so beautifully serene, so sublimely triumphant.

LOCAL INTELLIGENCE.

News Dealer.—Mr. C. P. Shockley keeps all kinds of Magazines, &c., on Market Street Maysville, Kentucky.

The Washington precinct was unanimous, or nearly so, for Jefferson for Sheriff—a compliment from his neighborhood very gratifying.

Johnson Peck has been appointed Deputy United States Marshal, to take the census in Mason county, in place of L. B. Goggin, declined.

There will be a match game of Base Ball on to-morrow at 2 o'clock, between the Shamrock and Stonewall Base Ball clubs, on the Forest Queen grounds.

The subscription to the Newport and Big Sandy Railroad was defeated in Campbell county on Saturday last by several hundred majority.

Base Ball.—There was a spirited and well contested match game of Base Ball played on Saturday last, between the Forest Queen's of this city, and the First Nine of Ripley. The Maysville club won the game by a handsome score.

The Democracy of Henry county have nominated Jno. G. Taylor for County Judge, E. P. Thomas, Sr., County Clerk, Polk Ditto, Sheriff, Geo. L. Petty, Assessor, Sol. Tingle, Jailor, W. W. Turner, Surveyor, and Nat Hardin, Coroner.

The Masonic fraternity of Milton, Trimble county, have erected a commodious hall, which will be dedicated June 24th, (St. John's day.) Elisha S. Fitch, P. G. M. of Kentucky, will deliver the oration and conduct the services of the day, assisted by other prominent Masons of this State and Indiana.

Col. Thos. L. Jones arrived at his home in Newport on Thursday night last. It is presumed that his purpose in coming to Kentucky at this juncture is to be on the ground in readiness to accept any hostile invitation that may be extended to him. We have no apprehensions that blood will be shed in the difficulty.

Col. M. C. Taylor, of Shelbyville, left his home about six weeks ago to visit Louisville on business, since which time nothing has been heard of him, and as he had in his possession a large quantity of money, his friends are apprehensive that he has met with foul play. Col. Taylor is an unmarried man, between forty and fifty years of age.

Attempt at Murder.—On Saturday a man named McDaniel crept up behind another named Safford, with whom he had a short time before had a difficulty, and struck him on the back of the head with a heavy bar of iron. The wounded man was from Augusta, but at the time was working in James Hells's plow factory. He was very badly injured. McDaniel was placed in jail and will be tried before the Mayor this morning.

A Republican club was organized in Paris on the night of Monday, the 16th inst., the following being the officers chosen: President, Henry C. Hastings; Vice President, G. W. Morris; Secretary, L. A. McClintock; Assistant Secretary, John J. Hall; Treasurer, Harrison Jackson. After the organization had been effected, the club was addressed by Henry Marrs, of Frankfort, R. S. Henderson and Dr. Moore, of Paris. About two hundred names were enrolled.

A meeting of negroes was held in Newport on Thursday night in favor of the subscription of \$500,000 to the Newport and Big Sandy Railroad. It was addressed by A. S. Berry, an ardent Democrat and an officer in the rebel service during the civil war. So the Democrats will recognize the negroes as legitimate voters in spite of the counsel of Mr. Craddock. We have not learned that Mr. Berry invited any of the darkeys to dine with him.

There was a deplorable lack of harmony in the Democratic primary meeting at Orangeburg on Saturday last. We are not fully informed as to the merits of the case, but understand that the row was between the friends of the candidate for sheriff. Such was the bitterness manifested that the meeting adjourned without sending delegates to the County Convention. Both parties claimed the delegation, and both determined to apply for admission into the County Convention.

A Valuable Invention.—On Saturday we were shown a working model of a "sulky harrow and cultivator, and roller" invented by Mr. James A. Casey, of this city, and patented last October. It is a very valuable machine, as any farmer will at once agree when he is informed that by moving a lever, without leaving one's seat in the sulky, the harrow can be lifted from the ground and cleaned when choked with weeds or grass. The harrow and cultivator can be taken out, and the roller be put in its place, and the roller can be made solid, as for small grain, or used for corn, as one pleases. A model of the machine may be seen at Richeson & Brodick's, on Market street, in this city. Mr. Casey desires to sell county rights, and persons wishing to engage in the business of making and selling this important addition to agricultural machines can address him.

Charles Lamb was in the habit of wearing a white cravat, and, in consequence, was sometimes taken for a clergyman. Once at a dinner table, among a large number of guests, his white cravat caused a mistake to be made, and he was called on to say grace. Looking up and down the table, he asked, in his inimitable and liping manner: "Is there no clergyman present?" "No, sir," answered a guest. "Then, then," said Lamb, bowing his head, "Let us thank God."

The gentleman who asked in a New England restaurant for dry Silery, was informed that they were out of that, but had some cold cabbage.

Mason County Democratic Convention.

Pursuant to a call from the chairman of the Executive Committee, the Democratic party of Mason County met in convention at the Court House in the city of Maysville on Monday, May 30th, for the purpose of nominating candidates for the different county offices. There was a large and enthusiastic meeting, and earnest speeches were made by Judge Emory Whitaker and Hon. E. C. Pister, for unity and harmony in the Democratic ranks, which were received with unanimous favor. The convention was organized by electing Geo. L. Forman Chairman, and Thos. W. Wheatley Secretary, with F. H. Miller and Andrew T. Cox as assistants. On motion of W. W. Baldwin the delegates from the different precincts in the County were called upon to come forward and present their names with the proceedings of the primary conventions. The names of the following persons were thereupon handed to the Secretaries as the accredited delegates to the convention:

WASHINGTON No. 10.—George L. Forman, Thomas M. Downing, F. M. Weedon, with Dr. Morgan, Alternate.

MURPHYSVILLE No. 11.—W. R. Prather.

The names of the delegates as above, having been read to the convention, and each having promptly responded, it was moved that they retire to the Council Chamber to make nominations. A motion was then made by Dr. James Shackelford, that every candidate presenting his name before the convention pledges himself to abide its final decision. The motion was unanimously carried. The selection of a candidate for the office of County Judgeship being first in order. Jos. K. Sumrall and W. P. Coons were then put in nomination and balloted upon with the following result:

For Sumrall.....25
For Coons.....12

Mr. Sumrall was then declared the unanimous nominee of the Convention with its hearty support pledged him.

Nominations for County Clerk being next in order the name of Mr. Geo. W. Sulser was and there being no other candidate presented for this office he was unanimously nominated with the hearty support of the Convention.

For the office of County Attorney, Messrs. Garrett S. Wall and W. S. Frank, were put in nomination and voted upon with the following result:

Wall.....23
Frank.....4

The names of Mr. Perry Jefferson and Mr. John Mannen were then put in nomination for the office of Sheriff. There being no other name presented the ballot was taken with the following result:

Jefferson.....23
Mannen.....7

There was a misunderstanding between the delegates from the Orangeburg precinct, in regard to their instructions, and two of them did not vote on the above nominations. The nomination of Mr. Jefferson was then declared unanimous with the warm support of the members of the Convention.

For the office of county Assessor the names of S. L. Grant and W. L. Parker were put in nomination and the ballot taken with the following result:

Parker.....25
Grant.....10

The nomination of Parker was made unanimous.

For the office of county Jailor the names of Messrs. A. Dobyns, Wm. Carr and John L. Grant were presented as candidates. There being three nominations, a motion was made and carried to drop the one candidate receiving the lowest number of on votes the second ballot. The first ballot was taken as follows:

Dobyns.....11
Carr.....18
Grant.....18

A second ballot was also taken with the same result and the name of Mr. Grant was dropped.

Result of third ballot:

Carr.....21
Dobyns.....13

The nomination of Mr. Carr was made unanimous.

Mr. Samuel Riley was presented before the convention for the office of county Surveyor and unanimously nominated. Messrs. Magnus T. Cockrell and W. S. Beauparc were put in nomination for the office of Coroner with the following result, one delegate not voting:

Cockrell.....27
Beauparc.....3

The following names from each of the precincts to constitute the Democratic executive committee of the county having been already reported were called out and unanimously appointed by the convention.

PRECINCT No. 1.—Maysville, Jas. H. Hall.

sult of their deliberations and the convention adjourned, sine die.

Napoleon and Eugene.

Some years ago, a numerous company of distinguished guests often met in a villa belonging to a Spanish family, close to the Seine at Passy. The duchess was a most agreeable hostess, and her two daughters, like a double magnet, attracted all hearts. Louis Napoleon came frequently to the villa at Passy. It was soon remarked that the chief object of his visits was the elder daughter of the house. The Princess Eugenie herself perceived this, but at first her Spanish pride induced her to reject the president's attentions. But the prince must have possessed something of his uncle's conquering talent, for one evening, at a brilliant assembly at the duchess's Eugene appeared in an exquisite "violet toilette"—violet in her hair, violets looping up her dress, and the historical, significant bouquet of violets in her hand. The prince understood this language of flowers; the princess had accepted his offer of marriage.—Sketches of Modern Paris.

A NICE JURYMAN.—A Quincy correspondent of the Tallahassee Floridian relates the following incident as having occurred in Court there recently:

"A negro juror was asked by the acting States Attorney if he had taken an oath in any secret organization when acting as a juror not to bring in a verdict against any one of his color where a white man was interested. He replied he had. The Judge immediately ordered his name to be stricken from the list of jurors."

No one was recently more astonished than an enterprising Englishman in Rome, who was about to open a large hotel in the Eternal City. His intention was to call it the Hotel Byron; but the Papal authorities objected to that name on the ground that Lord Byron had been an Infidel. At the same time they were kind enough to inform him that he might call his hotel the Shakespeare House or the Newton House. He finally resolved to call it the Westminster House.

A MYSTERIOUS AFFAIR.—Last week the remains of a man were found, in a sink hole, across which some trees had been felled in Allen county, a short distance from the Barren line. They are supposed to be those of Bridges who disappeared mysteriously, last fall, from that neighborhood, and never has been heard from since. The remains were identified as those of the missing man, from the peculiar conformation of the bones of one of the feet, which corresponded with the "club," or deformed foot of Bridges.

The whole affair is shrouded in mystery, no clue having been obtained which is likely to throw light upon the manner in which the unfortunate man came to his death. It is of course the general supposition of his neighbors, that he was murdered, but so far, suspicion has fallen on no one, and it is probable that the mystery of his death will never be cleared up.—Glasgow Times.

Koskoo.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtue, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver diseases, &c.

The last Medical Journal contains an article from Professor R. S. Newton, M. D., President of the E. Medical College, City of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicine have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit on the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day.

THE CHESAPEAKE AND OHIO RAILROAD

Is completed and running from RICHMOND, Va., to the celebrated WHITE SULPHUR SPRINGS, West Va., 227 miles. It is being rapidly extended to the Ohio River, 200 miles further, making in all 427 miles.

In its progress Westward, it penetrates and opens up to market the Wonderful Coal Deposits of the Kanawha Region in West Virginia. And thus brings the superior and abundant Coals of that section into communication with the Iron Ores of Virginia and Ohio, and the West-ern, South Western and Eastern markets.

When completed it will connect the superior harbor facilities of the Chesapeake Bay with reliable navigation on the Ohio River, and thus with the entire system of Railroad and Water transportation of the great West and South-west.

It will make a short, easy, cheap and favorable route from the West to the sea, and will command a large share of the enormous freights seeking transportation to the coast.

It will thus become one of the most important and profitable East and West Trunk Lines of Railroads in the country, and command a trade of immense value.

The completed portion of the road is doing a profitable and increasing business, and is fully equal in value to the whole amount of the mortgages upon the entire Line—(\$15,000,000).

The loan of the Chesapeake and Ohio Railroad Company, being a First Mortgage upon the entire Line, property and equipments, worth when completed at least \$30,000,000, is therefore one of the most substantial conservative, and reliable Railroad Loans ever offered in the market, and is peculiarly adapted to the wants of

Investors and Capitalists.

Who desire to make their investments with the most satisfactory assurance of positive and undoubted security.

The Bonds are in denominations of \$1000, \$500, and \$100.

Interest Six per cent, per annum, payable MAY 1st and NOV. 1st, PER ANNUM.

Principal and interest payable in Gold in the City of New York.

Price 90 and accrued interest in Currency, at which price they pay nearly seven per cent. in gold on their cost.

All Government Bonds and other Securities dealt in at the Stock Exchange, received in exchange, at their full market value, and Bonds sent to all parts of the country, free of Express charges.

They can be obtained by ordering direct from us or through any responsible Bank or Banker in any part of the country.

Buchu
To
PHYSICIANS.

New York, August 15th, 1868.

Allow me to call your attention to my

Preparation of Compound Extract Buchu.

The component parts are BUCHU, LONG LEAF CUBES, JUNIPER BERRIES.

Mode of Preparation.—Buchu, in vacuo. Juniper berries, by distillation, to form a fine gin. Cubes extracted by displacement with spirits obtained from a flame distillation of sweet oil. Mine is the color of ingredients. The Buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection, it will be found not to be a Tincture, as made in Pharmacopoea, nor is it a group—and therefore can be used in cases where fever or inflammation exist. In this, you have the knowledge of the ingredients and the mode of preparation.

With a feeling of confidence, I am, very respectfully,

"The child with the horse's head," says the New York Commercial Advertiser, "turns out to be a humbug. In other respects its head is well formed, and bears no resemblance to that of a horse, or any of the lower animals."

On Thursday a party of Winnebago Indians located on a reservation in Nebraska, made their appearance on the premises of a farmer living twenty-five miles above Sioux City, and while he was plowing shot him in the back, and afterwards severed his head from his body. On Thursday night a horse was stolen at Glenwood, Iowa, the thief escaping to the Nebraska side. He was pursued and captured Friday afternoon, by Sheriff Johnson, of Plattsmouth. Releasing himself, Johnson drew a pistol, and the thief starting to run, shot him in the neck, killing him instantly. In the melee the Sheriff received a shot through his hand.

Small lumps of ice swallowed whole will often check acute stomach inflammations, and will prevent nausea if heat is applied outside at the same time. Pounded ice, applied to the spine, is said to cure sea-sickness. A bit of ice will help dyspepsia and all throat complaints. Great quantities of ice-water are now given in fevers and plenty of it just before going to bed, will bring on profuse perspiration, if that is desired. Ice-water is now recommended and used as a cure for dyspepsia.

Every time you fail to perform a promise, you injure your character for truth; every time you do an unkind act you harden your heart; and every time you fail to do what conscience dictates, you say to the monitor, which God placed within to warn you, "Hush, I want not your warning," and soon she will withdraw and leave you slumbering, unproved till the last trumpet shall call you forth to judgment.

Medical. KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the country

As a Great and Good Medicine,

AND THE LARGE NUMBERS OF TESTIMONIALS

which are constantly being received from Physicians, and persons who have been cured by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER

IT HAS NO EQUAL

BRING POSITIVELY THE

Most Powerful Vegetable Alternative

YET DISCOVERED.

DISEASES OF THE BLOOD.

"The life of the flesh is in the blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the not tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in eruptive and ulcerative diseases, and when long continued, results in serious lesions of the brain, liver, lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Irradiate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO,

-AS A-

LIVER INVIGORATOR!

STANDS UNRIVALLED.

Being the Only Known Medicine

that EFFICIENTLY stimulates and CORRECTS the hepatic secretions and functional DERANGEMENTS of the LIVER, without DEBILITATING the system. While it acts freely upon the liver instead of copious purging, it gradually changes the discharges of a perfectly natural state.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish brown spots on the face and other parts of the body; indigestion and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; untidy appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

Is a remedy of Wonderful Efficacy in the cure of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The result which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the importance of their healthy action.

Regular and sufficient action of the Kidneys is as important, may even more so, than regularity of the bowels. The Kidneys remove from the blood those effective matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but KOSKOO should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the bladder originate from those of the kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the bladder and urinary passages. When we recollect that medicine never reaches the kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO,

MEETS WITH GREAT SUCCESS IN THE CURE OF

DISEASES OF THE NERVOUS SYSTEM.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical), are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows: A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, dizziness, noises or ringing in the head; confusion of ideas; temporary loss of memory; dejection of spirits; starting during sleep; bad dreams; hesitation in answering questions; sickness of hearing; twitching of the face and arms, &c., which if not promptly treated, lead to paralysis, delirium, insanity, impotency, apoplexy, &c., &c.

Is NOT a secret quick remedy. FORMULA around each bottle. Recommended by the best Physicians, eminent divines, editors, druggists, merchants, &c.
